

BRAIN-BASED SERVICES

at Youth Villages-Inner Harbour Campus

INNOVATIVE SERVICES

Youth Villages-Inner Harbour Campus offers a leading-edge brain-based services for troubled youth ages 5-21 who have significant developmental challenges, neurological and cognitive issues or neurodevelopmental disorders.

Through Neurofeedback and other brain based services the brain is optimized for learning and promotes living successfully. As an adjunct to traditional therapies and educational methods, brain based services may increase cognitive ability and improve many negative symptoms. Neurofeedback is a type of Biofeedback that trains and/or retrains the brain to function normally.

Neurodevelopmental disorders addressed include:

- Severe ADHD and other impulsive/explosive behaviors
- Autism spectrum disorders (autism, Asperger's, PDD)
- Learning disabilities
- Organic Brain Syndrome and Fetal Alcohol Syndrome

Brain-based services may include:

- QEEG Assessment (when needed)
- Neurofeedback
- Pre/Post Measurable Outcomes
- HeartMath
- Emotion Recognition and Communication Programs
- IVA: Continuous Performance Test for Medication Management
- Cognitive Enhancement Software
- Alpha-Stim/CES
- Auditory Visual Stimulation
